

Visual Arts Work Outline for Term II – Form 5

Course Outline

Students will explore the elements of art through thorough investigation, research and drawing. In an effort to train the eyes to understand how elements relate to each other, a collection of observational sketches will be done not only in class but also out of class. Students will develop their critical skills by discussing each other's work on a weekly basis. They will also execute extensive research regarding their selected expressive forms. Students will be exposed to three main expressive forms which include Drawing, Painting and Mixed-Media and Graphic & Communication Design.
